

# Asset Backer Link

**Asset Backer Link is your direct route to send us proposals. By connecting your in-house system to our proposal platform with API technology you're a few clicks away from getting an instant credit decision.**

By removing any duplication this helps make sure all of the information we need is right first time, plus if our automated rules are met, you could get a credit decision in as little as one minute. All the proposal information is saved on our Asset Backer portal where you can log in to generate the finance agreement and send to your customers for e-signature.

Easy and fast, Asset Backer Link saves you time and helps deliver an excellent experience for your customers.

## What can it do?

### Instant proposal submission

As soon as you send us your proposal, we'll provide you with our proposal reference in less than 30 seconds.

If your proposal meets our automated rules, you'll also receive a credit decision from us in as little as one minute.

### Easy to use

**Seamless integration with your own platform** so you only enter proposal information once.

**Send all the information required** so we can make an underwriting decision, saving time and effort going back and forth.

### Multiple functionality

Digitally **send a new proposal from your system** in just a few clicks.

Receive **proposal status updates** in real time and on demand into your system.

**Update a proposal** by making changes to the proposal in your system, or provide us with additional information if we need it.

**Upload proposal documents** either before or after submitting your proposal.

### Generate e-documents on Asset Backer

Take advantage of our online product suite and **electronically generate and sign documents in our Asset Backer portal.**

You can even do this if you created the proposal in your system and it was sent to us using Asset Backer Link.

**Contact your business development manager to get started.**
