Account Name

Double Access Account Issue 7

What is the interest rate?

	Gross Annual Interest	Gross Monthly Interest	AER*
Two or less withdrawals per year	4.00%	3.93%	4.00%
Three or more withdrawals per year	1.50%	1.49%	1.50%

Your interest rate depends on how many times you take money out in any anniversary year. An anniversary year is the 12 month period commencing on the opening date of your account and then renewing on each annual anniversary. The lower interest rate will apply from the day of your third withdrawal to the day before the anniversary of your account opening. From your anniversary date, your interest rate and withdrawals reset. Interest is calculated daily and paid monthly or annually. You can choose to have your interest paid to your Double Access Account, any other Personal Savings account you hold with us that allows deposits, or your nominated UK bank or building society account. A payment of interest away from your Double Access Account won't be classed as a withdrawal.

Can Aldermore change the interest rate?

Yes, the interest rate is variable. We can increase or decrease the rate for any of the reasons set out in our Personal Savings Terms and Conditions.

What would the estimated balance be after 12 months based on two example deposit amounts?

	Deposit at Account Opening	Balance Term End	Interest Earned
No withdrawals	£1,000	£1,040.00	£40.00
	£50,000	£52,000.00	£2,000.00
Three withdrawals	£1,000	£712.45	£12.45
	£50,000	£50,538.07	£838.07

The examples above assume that one lump sum is deposited at account opening, that no further deposits are made and that interest earned is paid to the account annually. The examples showing three withdrawals assume that withdrawals of £100 are made on the 14th, 21st and 28th day from account opening. The lower interest rate is applied from the day of the third withdrawal and then applies until the day before the anniversary date of the account being opened. These are only examples and do not take into account your individual circumstances.
